STANDARD TRUCK RETREADING WARRANTY

LIMITED WARRANTY

Every retread we process bears our company identification and is guaranteed to be free from defects in material and/or workmanship. If Purcell Tire determines that a retread or repair has become unserviceable due to a covered warranty condition during the first 2/32" (or the first 25% for UNICIRCLE retreads) of usable treadwear, full replacement of the retread or repair costs will be issued, based on the current "Purcell Tire manufactured selling price." If Purcell Tire determines that a retread has failed under the conditions of the warranty beyond the no charge period, Purcell Tire will, in its sole discretion, either repair the tire or make a reasonable allowance prorated on a percentage of tread wear. This adjustment policy is limited because any retread tire may fail in service or otherwise become unserviceable due to the conditions beyond the control of the manufacturer such as, but not limited to, mechanical condition of the vehicle, improper tire maintenance, road conditions, etc.
